## Fort Bend County Libraries' Multicultural Festival is a free experience of engaging performances, vibrant exhibits, and interactive workshops

While not unusual, it's not often that a singular event can effortlessly appeal to a range of age groups and interests, but when it happens at Fort Bend County Libraries, it's likely a community festival is afoot — and this is precisely the case for Saturday, July 25, when the public is welcome to experience the revelry that is Fort Bend County Libraries' Multicultural Festival.

Prepared by the FBCL Outreach, Partnership & Program Department in collaboration with George Memorial Library, this free public festival will take place from 10:00 am – 3:00 pm at George Memorial and feature cultural performances, exhibits, activities, and workshops that spotlight customs from the various cultural and ethnic backgrounds in Fort Bend County.

The George Memorial Library is located at 1001 Golfview Drive in Richmond.

Community members who attend the day's festivities will have the chance to sample delicious offerings from local vendors at the festival's **"Food Hall,"** which will be stationed in the library's Meeting

Room on the first floor from 10:00 am – 2:00 pm, head to the food trucks in the parking lot, visit ongoing exhibits, or enjoy and learn from the scheduled cultural activities.

### THE ONGOING EXHIBITS THAT CAPTURE MAGIC AND CELEBRATE GLOBAL DIVERSITY

The **Art Exhibit Featuring Betirri** will give the public a chance to view the dynamic work of internationally acclaimed, Houston-based muralist Betirri in an exposition celebrating art, culture, and the global spirit of soccer.

"Just like those iconic painters in the past captured the spirit of their times, I'm here to capture the essence of football — a game that's more than just sport; it's a universal language of joy and unity," he shared with the public. "Through my art, I want to capture the magic of football — not just the players on the field, but the energy, the colors, and the spirit of the game. Each painting is a window into the exhilaration and camaraderie that football brings to our lives—a reminder of the timeless joy of the beautiful game."

The exhibit will be in the Bohachevsky Gallery in the library's basement from 10:00 am – 2:00 pm. The artwork is inspired by Houston, the FIFA World Cup, and communities from around the world. Visitors can also view a replica of Betirri's 2026 FIFA World Cup mural in this exhibit. And, as a bonus, Betirri will speak during a special presentation from 1:00 – 1:30 pm in the gallery about his artistic journey, recent collaboration with the FIFA World Cup, and the cultural influences and experiences that inspire his artwork.

The creations of Elma L. Green, another multifaceted artist, author, and motivational speaker, will also be on display during the festival. From 10:00 am – 2:00 pm, the public can learn about how the history of basket weaving in America begins with the Gullah Geechee people (the descendants of West and Central Africans in the American Southeast) by visiting Jackson-Green's display, **"Basket Weaving: Texas Style,"** on the library's second-floor landing.

After finding inspiration in 2001 during a trip to Sapelo Island, Georgia, Jackson-Green created a new method of basket weaving by using yarn instead of traditional sweetgrass, and for more than two decades, she's been creating baskets and teaching others about the method and history of basket weaving.

"History is the foundation for our future. The stronger the foundation, the sturdier the building. These baskets reflect the talent, perseverance, and history of people who had so little but left so much," she stated. "It is a history that needs to be learned, shared, and respected."

Not all the festival's exhibitions are the work of one creator, though. The "Around the World Booths" and the "Community Resource Fair" are two ongoing festival events made possible through the works of many hands.

For guests who want to celebrate global diversity and "travel the world" without leaving the library grounds, the **"Around the World Booths"** (located in the Meeting Room) can satisfy curiosities. Developed by the Youth Excellence Program (YEP) interns, these interactive booths, operating from 10:00 am – 2:00 pm, highlight countries from around the world through crafts, trivia, and games.

The **Community Resource Fair**, set up in the lobby from 10:00 am – 2:00 pm, will connect library visitors with valuable programs, services, opportunities, and resources. Some of the program's featured participants include the Boys and Girls Club of Richmond, Children's Museum Houston, Daya Houston, and the Inner Mind.

#### LEARN MAHJONG, SOCCER FUNDAMENTALS, HENNA ART, AND MORE

Aside from the ongoing events, the festival will also include a schedule of events that progress along time slots.

Kicking the day into gear are two programs in the 10:30 – 11:30 am slot: "Find Your Roots: A Beginner's Guide to Family History" and "Soccer Fundamentals with Midas Football Academy."

The beginning genealogical researcher can learn about the genealogical information available in the library during the program **"Find Your Roots: A Beginner's Guide to Family History"** in the Computer Lab. The discussion will teach people how to organize their research and cover online resources such as Ancestry.com, FamilySearch databases, and information available on microfilm and in print.

During the **"Soccer Fundamentals with Midas Football Academy"** program, participants will be introduced to the fundamentals of soccer through fun, age-appropriate drills focused on ball control, passing, movement, teamwork, and coordination in a limited-space environment. The session will also include a youth mentorship discussion on how lessons learned through soccer — discipline, leadership, resilience, goal setting, teamwork, and respect can help young people succeed in school, relationships, careers, and life. The program will take place in the Café Area on the second floor and will conclude with an interactive Q&A and encouragement for participants to pursue healthy, active lifestyles while developing confidence and character.

The festival's 11:30 am – 12:30 pm events are "Henna Art with Henna Love Studio" and "Mahjong 101 with The Mahj Society."

Festivalgoers who want to dive into the world of henna can try the interactive, hands-on **"Henna Art with Henna Love Studio"** workshop in Room 2C. From mixing their own bowl of 100% organic henna paste to exploring step-by-step instructions for creating three simple designs, participants will uncover the beauty and tradition behind this ancient art form. (Please note that a signed liability waiver is required for participation.) By blending art, history, chemistry, and even a bit of cooking, this Henna Love Studio workshop will leave participants with a natural, homemade henna recipe, designing or drawing tricks and tips, and henna to take home and enjoy for weeks.

The **Mahjong 101** workshop in Room 2A serves as an introduction to Mahjong, a game deeply rooted in Chinese culture with a rich history spanning

generations. The Mahj Society, a Fort Bend-based community dedicated to bringing people together through Mahjong, is presenting this interactive workshop, during which guests will explore the cultural and historical origins and evolution of Mahjong, gain a foundational understanding of how the game is played, and experience the joy and connection it brings to communities worldwide. This program includes a beginner-friendly introduction to tiles, gameplay, and basic rules, plus a guided open-play experience where participants can see Mahjong in action and try it themselves.

As the afternoon progresses, visitors will have the chance to learn about the traditions and stories behind certain garments during the festival's **Multicultural Fashion Show** from 1:30 – 2:30 pm in the Bohachevsky Gallery. This show will be a celebration of the beauty and diversity of cultures from around the world, and a pleasant and colorful showcase of traditional attire representing various countries and communities.

Closing out the Multicultural Festival at George Memorial will be **“Around the World with Houston Brass Quintet,”** a musical trip around the globe with the Houston Brass Quintet from 2:00 – 2:45 pm, also in the Bohachevsky Gallery. Through an engaging interactive performance, participants will explore music from Latin America, the British Isles, India, Africa, France, and the United States while discovering the cultural traditions, histories, and unique sounds that make each region's music special.

### Incident Reporting Training

- JHAs are underway and include reviewing work processes and environments to better understand job-specific risks.
- Findings are documented to support consistent, informed safety decisions across departments.

### AED Program Alignment

- Efforts are underway to review AED placement and oversight practices
- Risk Management is also supporting departments with guidance on inspections, readiness, and accountability, with the goal of achieving a more consistent and coordinated AED program across County facilities.

## July is Social Wellness Month!

In 2023, former U.S. Surgeon General Dr. Vivek Murthy published "Our Epidemic of Loneliness and Isolation: An Advisory on the Healing Effects of Social Connection and Community." According to the advisory, which drew upon decades of research, "Loneliness is associated with greater risk of cardiovascular disease, dementia, stroke, depression, anxiety, and premature death. The mortality impact of being socially disconnected is similar to that caused by smoking up to 15 cigarettes a day, and even greater than that associated with obesity and physical inactivity."

Since then, research has continued to demonstrate the important of social connection to overall wellness. Here are some ideas to strengthen social connection for individuals, parents, and caregivers:

1. Invest time in nurturing your relationships through consistent, frequent, and high-quality engagement with others. Take time each day to reach out to a friend or family member.
2. Reduce practices that lead to feelings of disconnection from others. These include harmful and excessive social media use, time spent in unhealthy relationships, and disproportionate time in front of screens instead of people.
3. Be responsive, supportive, and practice gratitude. As we practice these behaviors, others are more likely to reciprocate, strengthening our social bonds, improving relationship satisfaction, and building social capital.
4. Help children and adolescents develop strong, safe, and stable relationships with supportive adults like grandparents, teachers, coaches, counselors, and mentors.
5. Model healthy social connection, including constructive conflict resolution, spending time together, staying in regular contact with extended family, friends, and neighbors, setting time aside for socializing away from technology or social media and participating in community events.

At BHS, our framework is based around five principles: Resiliency, Recovery, Reintegration, Reunification, and Reducing Recidivism. Each of these five principles supports social connection and wellness for the individuals and families our dedicated staff serve.

## How We Serve Texans

At TCDRS, we serve the people who serve the counties and districts that define the unique character of the Lone Star State.

Since TCDRS was founded in 1967, our system has grown to include more than 900 county and district employers across Texas. We are honored to serve more than 400,000 members, including more than 90,000 retirees and benefit payees.

TCDRS members provide valuable services that make our communities better and safer places to live. They are nurses, mechanics, road crew workers, sheriffs, attorneys, office workers, jailers and judges. You can find them in our ports, parks, urban areas and rural towns.

Our well-designed and responsibly funded retirement system provides a reliable stream of income retirees can count on for life.

At the end of 2025, the average TCDRS member retired at age 61 with 18 years of service, and was receiving an average annual benefit of \$29,220. These benefit payments aren't just good for our members, they also serve as an economic engine for local communities.

Most TCDRS retirees continue to live in the communities they served as public employees, and 95% of the \$2.6 billion in benefits we paid during 2025 stayed in Texas.

Statewide in 2025, TCDRS benefit payments supported approximately\*:

- \$3.9 billion in total economic activity
- \$2.3 billion added to the Texas GDP
- \$1.1 billion in additional earnings
- 23,309 jobs created

*\* Multipliers supplied by the Bureau of Economic Analysis, U.S. Department of Commerce.*
